

Dear Educator,

I hope that you are able to use *Waves, Wetlands, and Watersheds* with your students. In order to assess and improve this program, the Coastal Commission is requesting that you complete a short survey after you've had the opportunity to use the book. Please mail or fax it to the address below. We appreciate the time you take to complete this survey. If you have any questions, please contact me.

Thank you for your efforts to educate California's youth about our coast and water resources.
